

AL2Log

AL₂TECH
THE EMBEDDED EXPERTS

**The comprehensive
Industrial IoT
logging solution**

From basic sensor acquisition to intricate industrial data logger, the **AL2Log** stands as your scalable swiss army knife tailored to meet modern data logging needs.

AL2Log

Seamlessly connected / Utilizing LTE-M and NB-IoT, GPS receiver and USB-C interface

CONNECTIVITY

Flexible interface / Multipurpose sensor inputs (GPIO, CAN, RS485, 4-20mA, 0-10V), programmable power outputs and 220VAC smart switch

FLEXIBILITY

Engineered for **enduring performance**, eliminating the need for recharging, 24VIN and USB power supply options

LOW POWER

Visualize your data
Simplified web dashboard for intuitive data visualization

USABILITY

Small in size
130x150x70 mm

SMALL
